****To participate in room selection, you must submit your application by 12 p.m. on the dates listed above.***

Simple & Advanced Roommate Search: Students participating in Selection 3 through Selection 5 will be eligible to participate in simple and advanced roommate selection. Students will be eligible to participate in roommate selection beginning March 1 and thereafter 48 hours after submitting a housing application.

- Simple Search allows you to search for your preferred roommate directly by name or campus id. The roommate that you are requesting must submit a housing application and is eligible to participate. If a preferred roommate has already selected a room, you will be unable to search for that student. If they have chosen a room that has an open spot during your assigned room selection time, you will be eligible to select that room.
- Advanced Search allows you to search for a compatible roommate using specific traits or characteristics and viewable profiles. All roommate requests must be mutual. Roommate groups that are not fully matched will not be honored. Once a student has selected a room, the process is complete and you will not be able to re-enter the roommate search.

Room Selection: New applicants will be placed in room selection the Monday, following their application submission date. Once your room selection time is open, you will be able to view all available rooms. Residence Hall and room type availability is limited and rooms are chosen on a first come, first serve basis. Please understand the possibility that your first or second choice being available is based upon your application date and your assigned room selection period. Students are assigned a room selection time based upon your application submission date. Your start time may differ from the beginning of the room selection process start date and time. Students that participate in roommate selection will receive an averaged selection time for the roommate group. Once you have selected your room, the roommate and room selection process is complete. If a student neglect to select a room after three room selections, their application will be switched to inactive status.
